Electrical Engineering

TRAINING

BROADWAY INFOSYS

4th February, 2022

135 hours Professional

Java package

Reged No: 64498-066-067

WORK EXPERIENCE

Agrobotics Nepal

I started my carrier as Java developer from Agrobotics Nepal. I worked there as an intern from 2020 and got to know more about Java based ERP system. During 2022 I took a training regarding Professional Java programming from Broadway Infosys. I was involved in **Sajilo Krishi** Java based web application from Agrobotics Nepal. There I was involved in search module and learned using CRUD operation. I learned to use Git for version controlling. I was doing API testing using swagger and Postman. I also got an opportunity to experience Mysql queries and using them to solve real life database problems. I am also involved in some projects during my college studies mentioned as follows.

COLLEGE PROJECTS

Fruit Recognition System Using AI

Data sets were obtained from Kaggle. We used Python as programming language. I became familiar with Anaconda and computer vision.

Restaurant Management System

Web application Using Java SpringBoot, Bootstrap, Html, Css and MySQL as database.

Inventory Management Software(Final year)

WebApp project for educational institutions as our final year Project. We used java springBoot, React, Html, Css and MySQL for this project development.

Skills

- Core/Basic Java
- Html/Css
- Figma
- MySQL
- Java Spring boot
- Git/Github
- Postman / Swagger for API testing
- Maven
- Hibernate
- JavaScript

Languages

- English
- German(B1)
- Nepali
